A large industrial extrusion machine is shown in a factory setting. A long, white, rectangular extruded profile is being produced and moves along a conveyor system. The machine has various rollers and guides. In the background, there are blue storage cabinets.

Innovation and Production

Heritage Products manufactures all of the innovative production in-house. We own the unique extrusion molds and utilize many state of the art machines for the production of our different lines. Because we have all the facilities in our workshop we can easily adjust and perfect existing products. Also, in the development of new products we can test production methods, materials and designs in full scale. With this we can swiftly react to changes in the market, competition rules or personal taste.

These facilities combined with the innovative mindset and dedication to delivering the best possible products helps Heritage Products to keep innovative and market leading in quality, safety and durability.

Heritage Fence

Heritage Fence is a traditional fence made of advanced materials. The fence is made of 100% new PVC and will resist all weather conditions and keep its color and form. With Heritage fence you invest in a durable, safe fence, which is easy to maintain. Furthermore, the fence is also easy to install. In short, if you esteem quality and safety above everything else, Heritage Products offers you the perfect solution.

Artwood Fence light brown

Artwood Fence is a solution for your riding arenas and meadows that is both natural in appeal and practical. The product is composed of a PVC post with wood/resin compound. Because of the unique and innovative production method, the post behave the same as the white posts when it comes to durability, safety and low maintenance whilst still keeping a natural look. The light wood color will not fade and is very low maintenance.

Artwood Fence dark brown

Artwood Fence is also available in a darker brown color. The specifications and prices are identical to the light Brown version. Important difference is that the darker color will attract more heat so it tends to warp a bit more on the rails. This can be mitigated by some iron inserts in the rails. The color will also fade a more like natural wood to a grey-ish tone. So it resembles an older wood fence after some time.

Electra Fence

The Heritage Products electric fence consists of strong and durable vinyl posts holding the wire in place. Insulators, external conductions or brackets are unnecessary so the wire is wear and tear free, securing a straight fence for years. Heritage Products also offers the matching electric wire appliance and accessories. Customers can choose between round and square posts depending on there preferences. Square posts are available in white and black.

Polymer poles, planks and filler

Heritage Products produces the unique jumping poles from a combination of fully colored polymer tube profiles and round wooden poles. These materials create the perfect jumping pole. Heritage Products poles are consistent and constant in weight, are maintenance free and will last much longer than traditional wooden poles. The poles will not splinter and because of the fully colored profiles they will keep their color in normal usage.

Jumping configurator

The options to build a jump with equipment from Heritage Products are plentiful. We decided to incorporate a jump configurator on our website to make it easier for customers to select the jumps they are interested in and get an overview of the options and costs. This jump configurator can be found via the QR code below. We tried to get all the options in the configurator. There is however always the option to get bespoke jumps or have our team help you in selecting the perfect set for you.

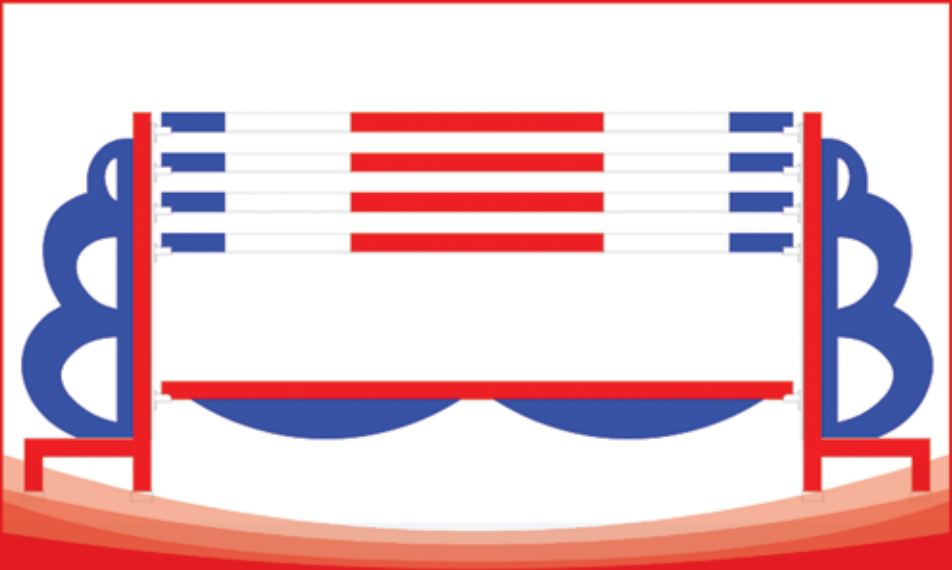

The configurator lets you visually build up the jumps with the various wings, designs, colors, poles and filler. You can build 1 jump or a full course of jumps including watertrays and oxers. There will be a live quotation at the bottom of the screen showing you exactly what the jump and the full set would cost.

When you are done configuring the jumps, you can generate a code that will allow you to load the exact configuration again or inform Heritage Products about your desired set. It lets us see what you have chosen and we can get your order started or help you with the questions you might still have, like delivery time and shipping costs.

Heritage Products is a partner for various large events as a supplier of dressage arenas and temporary fences. We have developed a unique fence system for events that can be built very quickly while still being extremely safe for horses and riders and keeping a nice look. Events like the KWPN Stallion Show, Indoor Brabant, NK Dressage Ermelo, Horse Event and World Cup Young Dressage Horses have been working with Heritage Products because of these benefits. Participating with events like these puts Heritage Products in the middle of the sport on all different levels. This is where we get our feedback and where we are inspired to innovate our products even further.

Interested in using fences or dressage arenas from Heritage Products for your event? contact us for an offer. In the back of this catalog we indicate some prices per weekend.
